

AGAVE

TEQUILA VS MEZCAL

WHAT IS THE DIFFERENCE?

A lot.

Although technically, tequila is a type of mezcal (in the same way that Champagne is to wine), it is different to all other mezcals as it's made from a specific agave variety : blue agave and must be from the state of Jalisco (or in small areas of four other states nearby) but crucially, it is processed and made in a very different way to mezcal.

Mezcal can be made from up to around 30 varieties of **agave**. Much like different grape varieties give different aromas and flavours in wine, the different varieties of agave result in very **different tasting mezcals**. Agave varieties vary from state to state and each will have its own flavour profile. This can depend on the terrain and climate.

Mezcal is made all over Mexico but **only a few designated places** are allowed to actually call it mezcal, in other areas it has other names but the most common is just '**Destillado de Agave**' - **agave distillate**.

Mezcal is made in **8 specific regions of Mexico**: Oaxaca, Durango, Guanajuato, Guerrero, San Luis Potosi, Tamaulipas, Zacatecas and Michoacan.

We serve our mezcals in traditional clay copitas. They are designed to release the flavours and aromas of the drink.

SO SIP IT SLOWLY AND ENJOY!

MEZCAL

TEPEZTATE

EL JOGORIO

vegetal, herbal, earthy 9

PIERDE ALMAS

complex, peppery, fruity 13

DEL MAGUEY WILD

bright, candied, cinnamon 11.5
